Subject : Three Mountain Air Quality Comments on PMPD

The following revisions to the air quality conditions of certification have been suggested by the Shasta County Air Quality Management District and staff.

1. On PMPD page 133, in condition AQ-1, change the first word from "This" to "The" and add "issued by the Shasta County Air Quality Management District" after "(PSD Permit)". The Note beginning the middle of the conditions should be deleted.
2. On PMPD page 135, in condition AQ-9, delete the words "and annually thereafter" at the end of the verification.
3. On PMPD page 137, in condition AQ-17, replace "fifteen (15) days" in both the condition and the verification with "thirty (30) days".
4. On PMPD page 138, in condition AQ-21, replace the word "sooner" with "later" in the verification.
5. On PMPD page 143, in condition AQ-29, insert the words "site of the previously" prior to the word "existing" in the second line of the condition.
6. On PMPD page 147, in condition AQ-38, insert the words "and the CPM" following the word "APCO" in the third line of the Note in condition AQ-38.
7. On PMPD page 151, in condition AQ-45, replace the words "commencement of construction" with the word "installation" in the last line of the condition.
8. On PMPD page 153, in condition AQ-48, insert the words "and the APCO" at the end of the last sentence in the verification.
9. On PMPD page 153, in condition AQ-50, replace the words "initial operation" with the word "installation" in the first line of the verification.
